

“NATURE IN THE CITY UNDER THE LIGHTS OF LUCI D'ARTISTA”

URBAN TREKKING

Accompanied by an environmental hiking guide, we propose the combination Nature+Luci d'Artista 2023; urban treks that will take you to discover ecologically relevant environments in Turin, including rivers, parks, gardens and simple flower beds; you will walk along unthinkable green urban paths, under the installations of LUCI D'ARTISTA. The silent nocturnal fauna of the rivers will contrast with the lights themselves and the life of the city; monumental trees and secret gardens will mark the redemption of Nature on the metropolis.

Simple walks in the city, from 6 to 7 kilometers with an environmental hiking guide in Italian and Spanish (English on request).

Parks, gardens, flower beds, tree-lined avenues, monumental trees (in the truest sense of the word) and a large waterway. Let it not be said that nature is no longer present in the city, at least in its most urban part! Metropolitan trekking that emphasizes Turin's "greenness", almost a treasure hunt; but of treasures, as well as natural, we will see springing from human art and poetry, such as those of the Luci d'Artista; In this way, we will be able to discover that many times, these second treasures coincide, in space, with the first...
